MOBILIZING OUR MISSION

FRESH PRODUCE PROJECT 2020

INVESTING IN OUR COMMUNITY

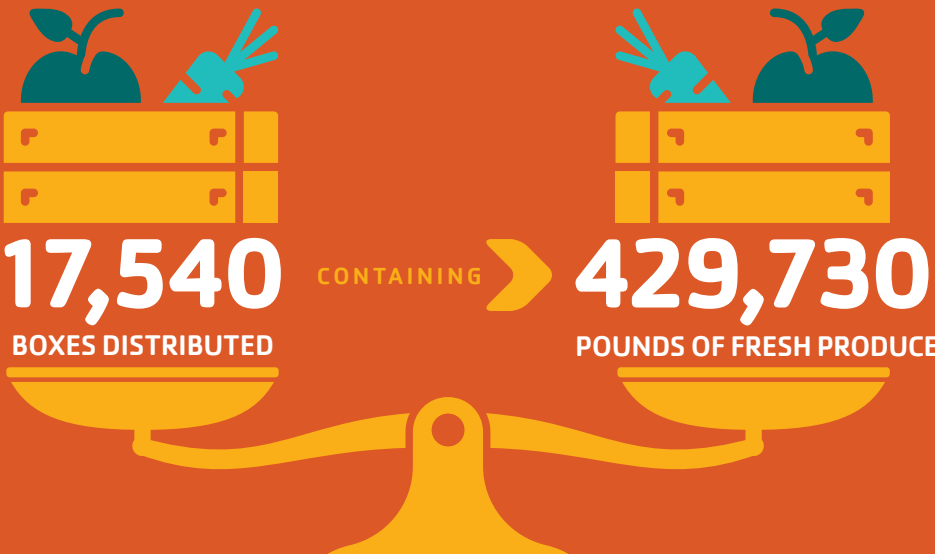

Record job losses and school closures increased food insecurities in the greater Omaha area due to the COVID pandemic. The YMCA of Greater Omaha was honored to partner with Omaha Public Schools and the USDA Food Box Distribution Program. Together we focused on providing fresh produce, including fruits & vegetables, in a timely fashion. This was important because the produce

complimented the dairy, prepackaged meals and nonperishable items many families had access to, therefore creating better balanced meals at home.

The mission of the Y is to build healthy minds, bodies and spirits for all, and providing families with easy access to fresh produce allows them to live a healthier lifestyle.

OVER 8 WEEKS

72 UNIQUE VOLUNTEERS SERVED FOR **272** HOURS

As a cause driven organization that is over 175 years old, the YMCA has historically found ways to serve the community in times of need and crisis. We are strengthening the foundations of community both inside and outside of our walls every day and this summer was no different.

To learn more about the YMCA's mission and impact, visit our website at metroymca.org

We were honored to distribute produce at 16 of Omaha Public School's 40 meal sites, located all over the Omaha area.
